DETAILED ACTION

Election/Restrictions

This application is in condition for allowance except for the presence of claims 1-3 and 7-9 to an invention non-elected with traverse in the reply filed on April 28, 2005. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.

Applicant's election with traverse of Group II in the reply filed on April 28, 2005 is acknowledged. The traversal is on the ground(s) that there is coextensive search. This is not found persuasive because (1) applicants have failed to show that a coextensive search is a reason for not requiring a restriction requirement, (2) there is no coextensive search because claims 1 and 7 as claimed does not require a first, a second, a third pieces as required in claim 4, (3) it is a serious burden on the Examiner to have to examine numerous patentability distinct inventions having numerous and diverging issue of patentability, especially when a patent application is limited to one invention.

The requirement is still deemed proper and is therefore made FINAL.
